ECO481

University of Toronto

Fall 2023

TUTORIAL 6

Using Yahoo Finance:

1. Web scrap 20 articles in each of the following rubrics in the news: Politics, Stock Market News, and Cryptocurrency. Keep the labels. This will be your corpus (80 articles).
2. Preprocess the textual information.
3. Construct a Wordcloud for each of the four rubrics.
4. Construct the Bag of word for your corpus.
5. Construct the similarity matrix.
6. Visualize the similarity matrix using a heat map.
7. Interpret the results.
8. Construct a classifier that enables you to predict the different rubrics. Interpret the results.
